Since the receipt of Thursday's unoffi cial advices that all except one or two of the insurgent leaders are heartily sick of the rebellion the war office officers have believed that the beginning of the end of the war has really come at last. The insurgent forces have been pressed far to the northward, and at the rate at which the Americans are forcing the steady retreat of Aguinaldo and his followers from one position to another there could be little doubt that

of its purpose. This is encouraging to General Oria and the other American military leaders in the island of Luzon, and this leads the war department to expect better news from the Philippines within the next 24 hours than has been heard since the revolt began.

SUNDAY OBSERVANCE,

servance was the question which took the major part of the Presbyterian assembly's time yesterday. Most of the long afternoon session was devoted to an earnest and often excited discussion of the report of the special committee on Sabbath observance. In the end the committee's eight resolutions were adopted with slight amendment, and two more were added. In the discussion the Sunday street car, the Sunday train and railroad excursion, the Sunday newspaper, the Sunday working Pres-byterian and every form of activity which is not in harmony with the literal were condemned. Indignant comments were made when another special committee reported that it had not been able to keep congress and the president from granting the Roman Catholics permission to erect a chapel on the West Point Military academy reserva-

Governor General Brooke is thus far

unaware, save through the press telegrams, of any dissatisfaction on the part of General Alger, secretary of war, with his (General Brooke's) plan to have the arms deposited in the care of the mayors of the municipalities, nor has he received any other inkiling of the secretary's purpose to lay the mat-ter before President McKinley. ONE YEAR AGO.

Possibly you are indifferent to the fact that we opened in the big G. B. Adams store, for retail business, a little more than one year ago. It is quite natural that our store is no longer a novelty, and that it falls among the ordinary places with which you are perfectly familiar. When the store began it was a curio. Public attention was marked with an interrogation point. What would the ontcome be? The question is answered. In spite of all the limitations of beginnings, the public that came to enquire remained to support us with ample business and generous contributions

toward a permanent success. The whole venture was based upon a truth that was clear to us, although denied by many wise men, viz: That a large dry goods store, that would carry big stocks and show good assortments and sell goods at popular prices, could hold much at the trude here that goes to New York city. Great stocks (and we have supplied them), the best store service (and we are the frade here that goes to New York city. Great stocks (and we have suppned them), the next store service (and we have suppned them), the next store service (and we have progressing towards it), low prices (which we are able to give by buying and selling large lots of goods, and selling goods to one and all strictly for cash) has won the day for us. Many a doubter has frankly acknowledged that we were right. We are glad that the store is no longer a curio. It is vastly better to take and hold a strong place at the front rank of Middle town's business—Confidence replaces curiosity. This week is the best week in the history of our big store—best because made hopeful and successful. Because it has within it the promise of a success that shall deepen and broaden as it lengths
